FL PASO First Last and All the Time

(By Frank A. Spence.)

Et Paso is the only city having—
Mexico lying to the south, within a stone's throw of our door, rich in agriculture, minerals and climate, the mecca for the homeseeker and investor, and having the greatest variety of climate

California on the west, "The Land of Sunshine," her orchards and vineyards feeming with fruits, and her mountain and ocean resorts making her the place of the tourist for all America;

The corn and wheat fields of the north and east to fatten our grass fed stock, raised on the open range without feed or shelter,

Here we have the productive part of the world to replenish our wants when a shortage of lay, grain or dairy products occur; which puts El Paso in the center of a circle that no other part of our country can boast of, and having as a feeder the Elephant Butte Dam—the largest dam in the world, there being only one world to which we have access. Watch us grow.

To foreign Fields in search of Flowers How of we cast these eyes of ours. How lightly we prize what we have in our hands. While grasping at Shadows in far off lands.

Sold, and Hundreds Yet to Hear From.

Nearly 700 seats have already been sold for the entertainment next Tuesday night for the benefit of destlints women and children of Belgium. The \$150 received aiready has come from a very few individuals compared with the total number of those to whom the opportunity to give to the fund has been directly brought, since by far the larger proportion of those to whom tickets were sent have not yet replied, it is safe to assume that most of them expect to take one or more tickets, and the expectation is that the theater will be well filled for the entertainment. Tickets may be had at any of the principal stores, or at The Herald office, at 50c each. There will be no reserved seats.

at 50c each. There will be no reserved seats.

The hendquarters of the Belgian fund in New York reports that one town sent a contribution equal to 50c for every man, woman, and child in the place. So far, contributions through the medium of the coming enterfainment, to the Belgian relief fund in El Paso have totaled about one half of one cent per, capita. It is not a wild dream to expect that this sum will be multiplied by four or five at least before the list is closed. The entertainment itself will be exceedingly interesting and pleasureable. It is quite out of the ordinary, and will delight young and old. The participants in the entertainment all generously domate their services, so that the expenses will be kept down to a minimum. The Herald has undertainent because of number of the reservices and the cause of number of the reservices of the benefit entertainment because of nu-merous requests from those disposed

A Typical Letter.

Typical of the bundreds of pleasantly appreciative and encouraging letters already received from subscribers is one from Rev. Edw. Barry of St. Patrick's church. Father Rarry had sent in a geneous contribution with a pote expressing his earnest endorshent of the relief movement. Subscribers additional tickets were sent him, and without a moment's hesitation he sent another check' but The Heraid at once upon discovering the error returned the second check with an apology for the mistake and a word of thanks for the donor's quitek and abundant charity. To show how fine a spirit animates those who have already sent in over \$1500 for the fund. The Heraid takes the liberty of printing a part of father Earry's second letter, in the hope that, in the interest of arousing others to jain in the work, he will parsion a seeming trespass upon his desire for privacy. Says he: "I thank you for the

courteous explanation in regard to the entra tickets which your mailing clerksent to me, but it was not at all necessery for you to go to so much trouble
about it. I had surmised what had happened just as you have stated it.
As I have given the ton tickets to the
members of our junior choir, I shall need the other two for myself and
companion, so please find enclosed check in payment for them. It is only
